

MSigDB miRNA Motifs

Description

The [MSigDB miRNA Motifs](#) [1] ontology contains gene sets that share a 3'-UTR microRNA binding motif.

Statistics

Statistics can now be found in the footers of each table in the GREAT web output.

Download

All ontology data was downloaded and built between Oct 14, 2011 and Feb 18, 2012.

GREAT v1.8

GREAT v1.8 MSigDB miRNA Motifs statistics are [available here](#).

GREAT v1.2

GREAT v1.2 MSigDB miRNA Motifs statistics are [available here](#).
